ARMOR PAGEANT TONIGHT

Church Women to Present Americanization Spectacle
An Americanization pageant will be staged tonight in the Ardmore Baptist Church by the women of that suburb. Mrs. Lyane Lewis will represent Columbia. Mrs. Howard Wayne Smith, wife of the pastor of the church, is chairman of the committee.

Y. W. C. A. TO AID WAR BRIDES

Foreign Women Will Be Entertained and Given Instruction
Names of forty-six war brides who have come from France, Belgium, Russia and England to make their homes in Philadelphia have been sent to the local Y. W. C. A. by the New York association. Miss Idella Grubel has been made chairman of a committee from the association, whose members will call upon the foreign women, plan entertainment for them and help them to become acquainted with the city and country. "We want to reach these newcomers and help them in every way we can to like America and Philadelphia," said Miss Mary Johns Hopper, executive secretary of the Y. W. C. A. here. "We hope to plan some parties for them at the association building this winter and to serve them in any way we can." The list shows that most of the brides are living with their husbands' people. The majority of them are French.

"I Saw Santy Claus—an' Millions o' Toys—an' He Promised Me an' Efelant!"

Is there anything else in the world quite so delightful as a little child describing a visit to the wonderful Toy Store and that momentous interview with Santa Claus? What perfect faith, what eager expectation in those big, round, shining eyes! Christmas is the children's day! The Toy Store is the children's store. It is maintained not so much to make money as to make friends—and we consider it just as important to make friends of the tiny tots as of their elders. No child should be denied the pleasure of a visit to the Toy Store. It means more to the small boy or girl than would a trip to the Yosemite to you. The great black bear and the elephant are very real and very wonderful to them. The velocipede, the kiddie car, the coaster wagon, the galloping horse or the sled with shining runners is as desirable to them as a high-powered car to you. The trains, boats and other mechanical toys open up great visions of activity and pride of ownership and management, that may develop the qualities of the future "captains of industry." And the girls—true to their instincts of sympathy and affection, they love the dolls and dolls' clothes and the miniature home furnishings better than anything else in Toyland. Bring the children to the Toy Store tomorrow. Santa Claus has a hearty welcome for each little visitor. And please remember that the best time to help Santa Claus is by making early selection of Toys, Dolls and Games.
